Professional Experience

Implevista

Dec 2024 – Present

Software Engineer

- Develop and maintain a **multi-tenant travel ERP** spanning Flight, Hotel, Visa, Work Visa, Umrah, Tour, CRM, B2B, and Accounts modules, serving multiple production tenants.
- Build and ship production features for **FTO Travels** and **FlightTrip** using React.js, Next.js, Node.js, TypeScript, and MongoDB.
- Architect **business logic, RBAC, authentication, tenant-aware data access, booking, payment, invoice, refund, and reporting workflows** used across the full platform.
- Build reusable APIs and UI components covering PDF generation, notifications, validation, error handling, and administrative workflows, reducing duplicate implementation across modules.
- Contribute to **AI/RAG-based document retrieval and workflow automation**, applying modern AI-assisted development practices to speed up feature delivery.
- Own **testing, debugging, code reviews, CI/CD, Docker, Git, Azure DevOps, and production deployment** for the platform.
